

MAN Diesel is the world's leading provider of large-bore diesel engines for marine and powerplant applications. The company develops two-stroke and fourstroke engines, auxiliary engines, turbochargers and propulsion packages that are manufactured both by the MAN Diesel Group and its licensees and deliver between 450 kW and 97.3 MW of power. The global after-sales organisation, MAN Diesel PrimeServ, comprises a network of the company's own service centres and authorised partners. MAN Diesel Benelux is established in Belgium and the Netherlands.

A member of the MAN Group

MAN Diesel Benelux is looking for a:

Superintendent Engineer 2-stroke engines

Job description:

Providing technical service and troubleshooting for our engines on seagoing vessels, and giving technical advice in form of follow-up to previously visited vessels as well as engine related support to our clients. Occasional travelling out of the Benelux.

Required Qualifications:

A qualified marine engineer with at least 5 years experience and sound knowledge of MAN two-stroke and/or four stroke engines and of electronic and pneumatic systems. Fluent spoken and written English skills are required, as well as being a strong team player and the ability to travel at short notice.

We offer:

- An exciting and challenging job in an international environment
- A modern and reliable employer
- Attractive salary
- Tailor-made training program in accordance with your previous experience
- Independent, varied profession
- A pleasant working atmosphere

Information about the position can be obtained by contacting Mr Nils Gerth, either by phone +31(0)10-272 45 00 or via e-mail nils.gerth@man.eu
